# WATER FOR FIRES

AN APPEAL TO COMMITTEE FOR STAND PIPES.

Insurance-Men Desire the Meter Restriction Removed---New Valves Ordered.

The Council Committee on Water held a special meeting last evening to receive a communication from the local Board of Underwriters. Present were : Messra J. W. White (chairman), John B. Cary, John Mann, Jr., and J. T. Mounteastle. The following letter from the insurance men was read :

"The insurance companies have rerecently raised the rates for insurance, but at the same time have indicated sundry improvements that, if made, will reduce the rate. Among them is a stand pipe and hose. The schedule requires a pipe of 21-inch diameter with hose attached at all times. The Super-intendent of the Water-Works informs us that the Council will require the persons who desire to avail themselves of this reduction to put in a water-meter, and the object of this communication is to request a reconsideration of this resolution for the following reasons:

"1. The improvement, if made, would tend to reduce the fire loss by providing facilities for the immediate extinction of any fire that may occur. The city is benefited by saving the cost of putting out a large fire, and by retaining on its tax-books property that if destroyed might not be rebuilt.

#### "RENTS WOULD INCREASE."

"2. The water-rents would be increased by having an additional hydrant on each floor to charge for, while the amount of water used would not in-crease, because these pipes would not be used except in case of fire. No one wanting to draw water would uncoil fifty feet of hose to get it when there was another hydrant on the same floor

that was open.

3. The cost of putting in a meter for a supply that might not be used in a year adds very much to the expense of such protection, and the property-owners respectfully ask through their committee that they may be spared such expense. In some instances rather than pay for a meter we are under the impression the parties will go without their insurence, thereby depriving the city and State of the tax on such premiums and the agents of their commissions. We would therefore respectfully request the Superintendent of Water-Works to allow all regular water-takers to put in a 24-inch stand-pipe and to have connections on each floor, provided a hose be attached at all times and used for fire purposes only."

The paper was signed by J. B. Moore

(chairman), J. W. Gordon, B. C. Wherry, W. Talley, and H. Bierne Blair. ir. Mann moved that the communi-

the present custom in such cases be carried out. This was adopted. PUMP-VALVES ORDERED.

Superintendent Bolling then brought up the matter of purchasing new valves for the pumps of the department. He said that he had tried one set of the valves agreed upon by the committee and found them to be eminently satisfactors. Since these valves had been factory. Since these valves had been put into use he had not had to work the steam-pumps at all, whereas he had been working them previously on an average of two days a week. On account of the scarcity of money at present he was instructed to purchase only one new set of valves. These appliances are very costly and it would cost about \$1,600 to equip have as yet made no reductions what all the pumps with them. The committee then adjourned.

## ODD-FELLOWS HAVE FUN.

Richmond Lodge's River Excursion a Most Delightful Affair.

celebration of some kind passed that of vesterday in the mat-ter of enjoyment for all in the jolly com-pany. The conception of a day trip down the river proved a happy one in-

The Ariel, with a merry company, embracing members of the lodge and their families and a few friends, left her wharf at 9:30 A. M., went as far as Brandon, the historic home of the Harrisons, where an hour's stop was made, and re-turned to Richmond just in time for the now tired pleasure-seekers to enjoy light suppers and a night of sound slum

EVERYTHING WELL ARRANGED.

All of the arrangements for the day's celebration were well laid and nicely carried out. There was not a hitch of any kind. Amusements of one kind or another were constantly in progress, and every possible attention was shown by the committee and others to the guest of the lodge. There was not a dull hour Colonel H. D. Capers Explains during the day. Iardella's String Band, in which were John Baseler and several other first-class performers and fine enell, furnished music for tertainers as w dancing, several ladies and gentlemen played on the guitar and mandolin, the orchestrion filled in resting spells, and several vocal selections were rendered by an impromptu chorus, and Messrs. James P. Wood and Charles Loeffler favored the audience with solos, the latter singing in his native tongue. It will, therefore, be seen that good music was one of the important factors in the day's pleasure. The day was just suited for such an

outing. The sun shone with considerable warmth, but there was a fine breeze, and the heat was not at all oppressive.

PRIZES PRESENTED.

The ride down the river was enjoyed by all, and especially by the fifty or more children on board. The Ariel pulled into the wharf at Brandon about 2:20 o'clock, and nearly all of the pas-sengers went ashore. Many walked up to look at the house and grounds, though they did not apply for admission; others strolled along the river bank, and a large party of gentlemen took a swim in the stream about a mile around the bend above the landing.

But it was soon after the start for home had been made that the most amusing feature of the day occurred. This was the presentation of prizes, After a band selection Mr. George B. Dayis announced that it had been de-cided to award the prize for the hand-somest man in the lodge to ex-Commonwealth's Attorney Harry Smith, and Mr. Lewis Tucker Smith, and Mr. Lowes made a very witty two-minute speech trophy, which, upon in delivering the trophy, which, upon being divested of three coverings of paper, proved to be three large links made of tin and suspended from a blue ribbon. The ever-ready member of the ribbon. The ever-ready member of the bar said he would ever wear the value able souvenir as a watch-charm and would hand it down to posterity, though

if he came to be hard pressed for bread
and meat he might have to pawn it.

Mr. Loeffler, the largest and jolliest
man on the boat, was given the prize for
being the ugliest man in the party.

Mr. Davis made the award in a handsome speech in which he paid him a high
compliment as an Odd-Fellow and comforted his feelings by assuing that in all compliment as an Odd-Fellow and com-forted his feelings by saying that in all nations the brainiest men were among the ugliest. When Mr. Davis uncovered a beard on which there was a twelve-inch horse-cake and handed it to Mr. Loeffler the sudience cheered voolgenessy. The recipient said he could hardly have been

given anything better, and he hoped his looks would improve by next year. GETS A HANDSOME RING.

The ring for the most popular young lady was given to Miss Lee Braswell, of Nashville, N. C., who is visiting the daughter of Mr. George B. Davis. Mr. Smith delivered the prize, and in so doing made a splendid speech in eulogy of the brave men and lovely women of the old North State. Miss Braswell was heartily congratulated by her friends upon getting the ring, which was a very pretty one, containing three sets.

very pretty one, containing three sets.

Many of those who went down carried lunch-baskets, but a majority enjoyed the excellent hot dinner served on oyed the excellent not dinner served on the boat by Mr. Chris. Evensen. Re-freshments, 'too, were abundant, and Mr. and Mrs. Evensen, like Messrs. Charles E. Loeffler, Lewis Tucker, George B. Davis, J. S. Bethel, and L. Lewis, who constituted the Committee of Arrangements, and others did everything possible to make the day pass pleasantly. Harry Smith, Frank Burke, and John Baseler were among those who con-tributed largely to the life and pleasure of the occasion. Mr. Charles L. Lang-ford, noble grand of the lodge, was prevented by sickness from being present.

# ATTACKED BY A MULE.

Dr. Harbaugh Has a Narrow Escape.

Dr. William H. Harbaugh had quite a narrow escape from serious injury Tuesday morning from the attack of a vicious mule. As it was, the Doctor was quite painfully burt. The animal was suffering from a tumor

and had been sent to the horse infirmary for treatment. The mule was pos sessed of a bad temper and gave evidence of ugly behavior before the operation began. On this account he was tied with two halters and Dr. Harbaugh and his assistants went into the stall to perform the operation.

When the cutting began the animal's

temper again showed itself, and the maddened beast made an attack on the surgeon. One of the halters gave way and the infuriated mule, thus partly liberated, plunged forward and struck the Doctor with his fore feet. An ugly gash was cut on Dr. Harbaugh's head and the left arm badly bruised. Dr. Harbaugh fell in the farthest cor-

ner of the stall, and his assistants managed to keep the mule from him until he could get out. The animal was then taken from the

stall and fastened to the operatingtable, where the operation was success fully performed.

### TELEGRAPHIC CHANGES. Few Operators Put Off and Mes-

sengers' Pay Reduced.

The Western Union Telegraph Company is reducing expenses generally in this district. Such operators as could be spared have been weeded out of the forces and in many cities the pay of the messenger-boys has been reduced from 2 cents to 1; cents per message. Super-intendent Tree was called upon by a cation be received and filed, and that | Disparch reporter yesterday and asked what changes or reductions had been made in Richmond. He said the receipts of the company during this dull season had been watched closely, and that it was observed that the general depression affected the company just as much as it did any other branch of business. It was, therefore, determined to put off temporarily such men as could be dropped. It was no wholesale dismissal, declared the Superintendent, He hoped to see his full force at work by October 1st. Only one or two opera-tors had been put off in Richmond. He said it was true that the pay of the messenger-boys here had been reduced from

2 to 1; cents per message.

The Postal people declare that they ever, either as to force or salaries.

## "DE FENCE" OF CAROLINA the Situation There.

Colonel H. D. Capers, of Charleston, S. C., was in the city yesterday. When asked by a DISPATCH representative how his State was getting along under the Tillman regime the Colonel replied, Oh, quit railing against South Carolina. In the days of Calhoun there was a top rail and two riders; in 1866 the bottom rail tried to jump on top; in 1893 the middle rail is just where it was, holding the rider and the stakes, and the bottom rail in proper position.

Happenings in Henrico.

Andrew Booker, one of the negroes charged with creating a disturbance on an excursion train over the Richmond, Fredericksburg and Potomac road, has been arrested. The examination into the case has been postponed until the others shall have been captured. The following ladies and gentlemen of

Fairmount left yesterday for a trip to Natural Bridge and the White Sul Springs: Misses Sadie Baker, Linda Jeter, Ivy Marable, and Messrs. T. Walker Jeter and E. M. Marable, Jr.

The Tent Meetings. Large crowds still flock to the head of

Clay street to attend the tent meetings now in progress there. Much interest is shown in the meetings, and there are conversions nearly every night. Rev. Mr. Bagby, pastor of Clay-Street Bap-tist church, who is preaching every night this week, is a speaker of wonderful power, and secures the closest at-tention of all present. To-night Mr. Bagby will preach on "Excuses." Prayer-meetings are held in the tent every afternoon at 5 o'clock.

A Narrow Escape.

As the carriage of Mr. J. A. Kratz, containing his wife and child, was being driven down Main street near Ninth yes-terday morning, the driver stopped the horses very suddenly to prevent running over a colored woman. The quick stop threw the little child out, its head falling between the spokes. But for the timely assistance of Mr. G. P. Perry the little one might have been seriously City Base-Ball League.

A called meeting of the City Base-Ball League was held last night and the following officers were elected: L. Guvernator, president; J. Driscoll, secretary; J. Brophy, treasurer. The first game will be played Friday, and will be between the Stars and Richmonds at Island Part.

# CHEERFUL OUTLOOK.

MR. JOHN P. BRANCH ON FINANCIAL SITUATION.

Expects Foreigners to Invest in Our Securities-The President's Message.

Mr. John P. Branch, president of the Merchants' National Bank, returned to the city yesterday, after a three-months' sojourn in Europe. He is in excellent health and reports that the health of Mrs. Branch has also improved. When asked by a Disparch reporter what the financial situation was abroad and what bearing it had upon the monetary disturbance in this country, Mr. Branch

"The English, French, and German "The English, French, and German people are all very prudent and do not begin to spend what they make, which leaves them a large surplus in the aggregate for investment. This they invest annually, and as they have very few securities of their own, they have invested in those of the United States for a good many years, and the amount they have taken annually from us have been very large. These investments continued for many years up to the Baring panie of November, 1890. They did little or nothing in 1891 on account of the scarcity of money, caused by the un-settling of credit brought about by the Baring failure.

FEAR AS TO OUR STABILITY. Farly in 1892 their attention was called to the large amount of silver which was being deposited in our government vaults instead of going into circulation, and to the decrease in our visible gold supply. This caused them to fear our ability to continue to pay gold for the greenbacks and the Treasury notes of 1890, hence instead of their buying securities from us as usual they have been selling them to us and taking our gold in payment of same. This has caused apprehension on the part of many capi-talists, who have withdrawn from circulation large amounts of gold and currency, when they could invest them in securities and produce two thirds of their intrinsic value.

As soon as the Sherman act for the

purchase of silver is repealed, which I believe will be done at a very early date. I am satisfied that foreigners will purchase very largely of our securities, and produce, as they have at this time, a larger amount of idle money than they have had for years.

THE PRESIDENT'S MESSAGE.

When asked his opinion of the President's message Mr. Branch replied: "I approve it heartily in every respect. Some criticism has been passed on it because it does not suggest a compromise or substitute for the Sherman act. Neither is necessary or desirable at this time. All the country wants is the re-peal of the Sherman act for the pur-chase of silver. This is all that is All the country wants is the reneeded to restore confidence and cause very large amounts of money which are now locked up to come out of their hiding places and go back into the regular channels of trade. When the Sherman act, which is a failure, has been repealed it will be time enough for Congress to provide the needed increased currency. This Congress will do, and give us a good currency by a larger majority than it gave in passing the Sherman bill three years ago."

The Police Court Vesterday. The continued cases against Wright & Taylor, charged with keeping their barroom open and selling liquor on Sunday, was heard in the Police Court vesterday morning. as much as possible and to carry on business more largely with checks. No depositor will be allowed to withdraw more than \$50 per day in currency, but the banks are issuing clearing-house certificates for the remainder. Money may be deposited for withdrawal. Speaking of the financial situation

President Baldwin, of the New Orleans National Bank, said: "I suppose that each of the leading banks in the city has been affected by the present trouble to a slight extent. Probably \$50,000 has been withdrawn from us and a similar amount from other large financial institutions here. Some of the businessmen and timid depositors were alarmed and withdrew their money quickly. But instead of losing in the aggregate of business we have been gaining, and there is unlimited confidence in the sound condition of the New Orleans

### N. Y. MONEY MARKETS Increase of Bank-Rates for Re-

By telegraph to the Disp. New York, August 9. - The feature of

New York, August 9.—The feature of the money market to-day was the announcement that the national banks had increased their rates for renewals to 10a 12 per cent. to out-of-town clients. The banks have not lost anything through Wall-street bankers or brokers, and consequently the new order of things will not affect the local financial community. To-day at the Stock Exchange call loans were readily obtainable at 4a5 per cent. There is no time money as yet and mercantile paper is almost unquetable because of the

pancity of business doing. Currency of all kinds commands a premium ranging from 2; to 4; per cent., with occasional transactions at even higher figures.
